

MADE-TO-FIT

INTELLIGENT OFFICE FURNITURE

MADE-TO-FIT.

Designing for projects with posts or obstacles of any type can be an extremely daunting task. Often times designers are forced to work within a manufacture's limits and restricted to make the design work by a manufacture's standards. This can lead to clunky designs, a misuse of space or leaving the room with a feeling of something more to be desired.

With IOF you don't have to design within the restrictions of traditional manufactures! We allow you to think outside of the box and design furniture that works with your spaces difficult obstacles to give your space the complete look you have been looking for.

MEASURE.

Taking the most accurate measurements is the key to designing furniture for tricky spaces! Be sure to measure twice to ensure your unique designs will fit perfectly into your space.

DESIGN.

IOF's amazing custom capabilities help make the design process easy! We will help bring your one-of-a-kind creations to life, just provide us with a sketch or CAD drawing with measurements and our team will get to work. Reminder IOF does not provide space planning services, but we are happy to assist in bringing your vision to life. Designs will be based off dealer provided dimensions.

MODEL.

Our expert design team will take your measurements and designs into account and provide you with a 2D and 3D drawing of your custom creation. This will enable you to visualize your items in the space and ensure all measurements are correct.

MANUFACTURE.

Once your custom design has been approved our experienced manufacturing team will build your furniture to your exact design specifications. After completion your fully assembled furniture is ready to be put into place!

COLLABORATION

Don't let tricky posts or objects get in the way of making team work possible. At IOF we understand the value of collaboration and we are willing to take on the challenge of working with difficult spaces to ensure your collaboration needs are meet.

COVER EVERY CORNER.

Leave no corner uncovered! Make the most out of your environments and design with the mindset that filling your entire space is possible. Even if it seems impossible our skilled sales and design staff will assist in creating the best possible design to fit your space.
